Information Disclosure Statement

Commissioner for Patents
Post Office Box 1450
Alexandria, Virginia 22313-1450

Sir:

This is an Information Disclosure Statement submitted under 37 C.F.R. § 1.97 within the time specified under 37 C.F.R. § 1.97(b).

In order to comply with the duty of disclosure under 37 C.F.R. § 1.56, the U.S. Patent and Trademark Office is notified of the document which is listed on the attached Form PTO/SB/08A and which the Examiner may deem relevant to patentability of the claims of the above-identified application. A copy of document is submitted herewith.

This present Information Disclosure Statement is being filed before the mailing date of the first Office Action on the merits, and therefore no Statement Under 37 C.F.R. § 1.97(e) or fee under 37 C.F.R. § 1.17(p) is required.

For Document AA, as no English translation is readily available, the Applicant provides the following concise explanation. Double-talk is detected from the power ratio of the transmitted residual signal to the echo replica signal. The double-talk state is distinguished from echo path changes by correlating the near-end input signal with the echo replica signal, the correlation being normalized by the power of the echo replica signal.

In view of the above, no further translation or concise explanation is required, and as

all requirements of 37 C.F.R. § 1.97 and all official guidelines pertaining to Information Disclosure Statements have been complied with, it is therefore respectfully requested that the Examiner consider the documents and make them of record.

Please charge any necessary fee or credit any overpayment in connection with this Information Disclosure Statement to Deposit Account No. 22-0261.

Respectfully submitted,

Date: July 15, 2003

Michael A. Sartori, Ph.D.
